SUMMARY

Full-Stack & Software Engineer specializing in .NET, Blazor, and Cloud-based solutions with a strong foundation in AI/ML and modern web development.

EXPERIENCE

Associate Software Engineer (.NET Developer)

Logic Decipher Pvt Ltd
Remote (India)

September 2024 - Present

- Developed features for enterprise Blazor / .NET Core applications, applying modular programming practices to improve maintainability and scalability.
- Built reusable API client libraries via Azure API Management (APIM) for Document Generation, Notification, and SharePoint services; integrated Application Insights telemetry for exception tracking and performance monitoring.
- Refined CI/CD pipelines in Azure DevOps (automated build, test, release), increasing deployment reliability and reducing production issues.
- Built and extended Fulcrum-based web applications using Blazor and .NET Core, developing modular components and complex multi-stage workflow logic to support internal business processes for employees across departments.

Full Stack Intern (.NET)

Excellence Technologies
Mohali (Punjab)

May 2024 - August 2024

- Built web application features and RESTful APIs using ASP.NET (.NET Framework), C#, and Entity Framework, including schema design and responsive UI/UX.
- Implemented automated testing pipelines and worked in an Agile/Scrum team (sprint planning, code reviews, Git version control).

Intern

Sting Fu Pvt Ltd
Mandi (H.P.)

October 2023 - April 2024

- Extracted and structured live market price data with Python to support the development of trading bots and algorithms; maintained firm trading systems.

Training Intern

CDAC
Mohali, India

October 2022 - January 2023

- Applied Python for AI/ML research; built computer vision workflows and implemented ML algorithms in Jupyter across multiple projects.

SKILLS

Languages: - C#, Python, JavaScript, SQL, HTML5, CSS3

Frameworks and Libraries: - .NET Core, ASP.NET Core, Blazor, MudBlazor, Entity Framework, Bootstrap

Database and Tools: - Azure API Management (APIM), Azure Application Insights, Azure DevOps, CI/CD Pipelines, Docker, Git, Linux

Cloud and DevOps: - SQL Server, MySQL, SSMS, REST API Development, Postman

AI/ML: - Machine Learning, Computer Vision, GPT & Claude Models, GitHub Copilot

PROJECT

ModularConverter — github.com/ratulg0/ModularConverter **2025**
Modular C#/.NET file-conversion platform with a Backbone API and pluggable Document and Image conversion modules behind shared contracts, plus a web UI for uploading and converting files.

Portfolio Website — github.com/ratulg0/mycv **2024**
Personal portfolio built with HTML5, CSS3, and JavaScript; deployed on Netlify with GitHub CI/CD integration.

E-Commerce Store — github.com/ratulg0/E_commerce **2024**
Full-stack e-commerce app using C#, .NET Core (repository/unit-of-work/specification patterns), ASP.NET Identity + JWT auth, TypeScript frontend, Redis + Docker for basket caching, and Stripe payment integration.

Diabetes Prediction Model — github.com/ratulg0/diabetes-pred **2023**
Machine learning model in Python/Jupyter to predict diabetes risk from patient health data, covering data preprocessing, model training, and evaluation.

EDUCATION

Bachelor of Technology in Computer Science and Engineering **2023**
University Institute of Technology, HPU, Shimla • Shimla, (H.P.), India

Senior Secondary Education **2019**
Alok Bharti Sr. Sec. Public School • Mandi, (H.P.), India

Secondary Education **2017**
Jawahar Navodaya Vidyalaya, Pandoh • Mandi, (H.P.), India
